Clause

What is your position on the application

Position

I support the application

Notes

EDN is absolutely essential for the NZ Forest Industry as a potential replacement of Methyl Bromide for the phytosanitary treatment of our forest product pre export. Without a suitable alternative (such as EDN) market access to our major markets is at risk, which could cripple NZ's 3rd largest export earner.

Clause

All submissions are taken into account by the decision makers. In addition, please indicate whether or not you also wish to speak at a hearing if one is held.

Position

No I do not wish to speak about my submission at the hearing
