### Overall Notes:

#### Clause

What is your position on the application

#### Position

I support the application

#### Notes

Ernslaw One Limited support the application for EDN. This product provides significant environmental benefits over the current products available for use. With the ability to fumigate with Methyl Bromide being restricted, EDN will allow us to continue to efficiently operate in NZ ports and export product to our markets. The future without a viable alternative to Methyl Bromide is a bleak one - with significantly increased inefficiency and cost. This will be felt throughout the NZ forestry industry. We need EDN in our phytosanitary tool kit.

#### Clause

All submissions are taken into account by the decision makers. In addition, please indicate whether or not you also wish to speak at a hearing if one is held.

#### Position

No I do not wish to speak about my submission at the hearing
