

EPA Hearing - APP202804 – EDN (Ethanedinitrile)

STIMBR

Response to Directions and Minutes 14 and 15

Issued November 2021

[REDACTED]

Talking points:

- What is to be treated
- Treatment enclosures – the urgent need to enable treatment of ship holds
- Addressing uncertainty, risk mitigation and management
- Appropriate Health standards – tolerable exposure limits
- The need for certainty and one set of national controls/use requirements.
