What is your position on the application

Position

I oppose the application

Notes

I think the requirement to notify the public regarding the use of PredaSTOP poison within a 3km radius should remain unchanged. The proposal to amend this requirement to 500m will result in a significant increase in harm and death to family pets. The horror and emotional distress of losing a beloved member of the family and the impact this would have on families is far more significant than any monetary value Connovation might potentially save on distributing notifications. Do not let Connovation's desired profits influence the current restrictions. This smacks of a greedy business putting profits before people and pets.
