

APP202879 - PredaStop for feral cats

Submission Reference no: 109

Kathleen Michelle Peach

Submitter Type: Not specified

Source: Web Form

Overall Notes:

Clause

What is your position on the application

Position

I oppose the application

Notes

I strongly oppose the use of poison against cats and strongly oppose changing the distance of 3 kms to 500 metres from dwellings where a person can use baited poison traps. It is inhumane to let cats suffer a terrible death from poison. Domestic pets could be caught and killed and this is unacceptable. How many children (and adults) would suffer if their beloved pets were killed?

Clause

All submissions are taken into account by the decision makers. In addition, please indicate whether or not you also wish to speak at a hearing if one is held.

Position

No I do not wish to speak about my submission at the hearing

Notes

Although I do not want to speak at the hearing I would definitely be willing to do if I thought it would help stop the use of poison against cats. This is barbaric and is inhumane and no animal should be subjected to such a terrible death. It is unthinkable that domestic cats could also be poisoned as this would cause terrible trauma to the owners of these lovely animals. Allowing the use of poison within 500 metres of dwellings is absurd. PLEASE don't use the poison.
