Overall Notes:

Clause

What is your position on the application

Position

I oppose the application

Notes

I strongly oppose the use of this poison or any other poison on any cat and other animals. It is cruel and inhumane!! there is no discrimination on what this poison will affect. The environment is important and the best way to eradicate rats and mice is by the cat. rats cause a lot of damage to our native birds through eating there eggs etc. Rats are also disease carriers and we do not want repeats of the black plague. The risk to stray and colony cats from this poison is huge! these cats are NOT a risk to our native wildlife and are cared for and monitored by volunteers. This new plan will put all our much loved domestic cats at risk!

Clause

All submissions are taken into account by the decision makers. In addition, please indicate whether or not you also wish to speak at a hearing if one is held.

Position

No I do not wish to speak about my submission at the hearing
