Clause

What is your position on the application

Position

I oppose the application

Notes

The demonizing of animals the reckless use of poisons and total disregard for the environment animal and human life is setting precedent for a disaster of catastrophic proportions . Your proposition is not only criminal and a violation of the environment - but is also a total disregard to the risk to human life and their pets . Are each and everyone of you prepared to take responsibility for the deaths and damage you cause ? where is your pre and post monitoring ? where is your evidence of nuisance ? What of the organisations that have put tremendous time and money into TNR programmes ? Why would you increase the risk to lives and pets by decreasing the buffer zone and communication ? You are playing Russian Roulette with lives and its totally unacceptable
