What is your position on the application

Position

I oppose the application

Notes

We live on the Zealandia fence line and have two well loved and well looked after cats. We are also part of the predator free programme and have a rat trap in the bush near us which we are responsible for. We are extremely concerned that this application could be accepted as the area we live in could be affected by the use of this bait without us being notified. Cats (and dogs) regularly use the Bush area which borders the Sanctuary as there are several walking paths around the area. The small area which the application proposes has enormous potential to affect domestic cats and dogs in our area and I feel very strongly that this application should be rejected.

Clause
