MISSING WORKSAFE REPORTS

1. By Direction & Minute WGT033 the Decision-making Committee (**DMC**) asked parties to provide any comments on additional information listed in paragraph 12 of that Direction & Minute by 6 May 2021.
2. That additional information includes WorkSafe's monitoring results, and WorkSafe's summary report indicates there are individual reports for each event.
3. However, not all of the individual reports are available on the EPA's website. There are no reports for the monitoring on 21 March 2020, 7 May 2020, 11 June 2020 and 12 June 2020.
4. STIMBR cannot comment on the unavailable reports, or on the summary report to the extent that it incorporates the outcomes from the monitoring on the above dates. STIMBR therefore seeks additional time to comment on the WorkSafe monitoring reports as a component of the "additional information". STIMBR is unable to seek a specific extension as STIMBR has at the time of writing been unable to ascertain how long it might take for the missing reports to be made available.
