**The reasons for making my submission are<sup>1</sup>: (further information can be appended to your submission, see footnote).**

However, I wish to make a submission. My reasons are:

1. When Methyl Bromide fumigation was being carrying out in Picton several people became sick and three schools were in the drift line of the fumes once the covers were lifted from the logs being fumigated;
2. It is known for its dangers and money is not a good reason to put people at risk;
3. This is the same chemical that killed millions in Bhopaul, India, this should scare us;
4. I moved to Picton because I believed it was free from such pollutions; and
5. There are other fumigants, perhaps not so quick in their reactions, but if other countries have outlawed it they seem to be satisfied with what they are using. We should not be drawn by scare tactics of people who want continue using Methyl Bromide for their own financial success but to the detriment of other New Zealanders.
6. I believe WHO does not condone the use of Methyl Bromide.

I hope that notice is taken of this and other similar submissions.

Sincerely

Patricia Berwick
