I object to Methyl Bromide being used and used in areas of NZ that can cause harm to people in the vicinity without their knowledge.

I refer to the article below:

<https://www.stuff.co.nz/national/103690904/its-banned-in-other-countries-but-new-zealand-is-using-more-toxic-methyl-bromide-than-ever>

I ask you to stop poisoning our people and our country.

First, do NO harm.

Yours sincerely

E M Hobbs
