Kia Ora Team,

Tell the applicant that we are happy to send them the names and addresses of all the workers in the ports of Picton and Nelson who died after being subjected to their colourless odourless poison gas.

It would give them a new perspective to go and visit their families who now have to survive without their loved ones, only then will they truly understand how evil M/B is.

Then again, do you think they care less, or do they just regard industry workers as an expendable resource

Nga Mihi,
Pete.

Subject: APP203660 Update on the reassessment of Methyl Bromide

Kia Ora

On Friday 15 January 2021, the DMC for the reassessment of Methyl Bromide released a [Direction and Minute \(WGT029\)](#).

The applicant, in the [24th Memorandum of Counsel](#), has asked for access to the modelling files to be provided to an additional reviewer to assist in providing comments and for extra time to review those files. In Direction and Minute WGT029, the DMC granted the request to extend the timeframe for providing comments.

Due to the definition of a 'working day' in the Hazardous Substances and New Organism (HSNO) Act, the period for feedback from all parties to the hearing has been extended. The new deadline for comments is 29 January 2021.

Kind Regards,

The Reassessments Team
