What is your position on the application? Please outline your reasons in the text box below.

**Position**

I support the application

**Notes**

Kiwi fruit is important in come from northland and because we don't get cold enough to get good bud burst we need this product. Use correctly and by responsible growers it is a good tool and safe. It is cost effective product. The cost to the area Northland from not use this product is too great and the area will suffer due to smaller crops les income and work.
