#### Position

No I do not wish to speak about my submission at the hearing

#### Notes

#### Clause

What is your position on the application

#### Position

I oppose the application

#### Notes

I have strong concerns about approving this chemical, which has not yet been approved elsewhere or demonstrated over a long period to be safe. The application notes there are many risks, but then very optimistically and conveniently describes most as negligible or of minor effect (with quite unrealistic assumptions or assertions). There is no real need justifying the approval of this chemical at this time and New Zealanders to be put to unknown risks (by a foreign company with no real liability for any damage or harm that is subsequently discovered).
