**Subject:** Extension application

---

Dear DMC

I have seen the email of Robert Makgill and concur. I confirm that I have not seen any response by the Applicant to our joint application to date.

It is important for natural justice, which was emphasised by the Environment Court in *Kiwis Against Seabed Mining Incorporated v Environmental Protection Authority* ENV-2016-WLG-41 as an important requirement of the Bill of Rights Act 1991, that ex parte communication not take place, particularly on matters of public interest and correspondence that has been expressly made public.

I look forward to viewing the Applicant's response on the website.

kind regards

Duncan Currie
