**Subject:** Re: Trans-Tasman Resources Limited Marine Consent and Marine Discharge Consent Submission Form

Sorry to be a pain [REDACTED],

Have saved this but don't seem to be able to attach completed form so am writing it up myself.:

SUBMISSION ON SEABED MINING TTRL APPLICATION FOR;

NAME: Denise Lockett

I wish to submit against this TTRL application to mine our seabed and destroy a complete eco system.

I wish to make an oral submission.

I demand that these hearings be held at the marae in Patea as our democratic right to allow as many as possible of the interested parties to attend. I feel any other option is denying many of their democratic rights. As the EPA is supposed to exist to PROTECT the total environment or Aotearoa NZ to protect our land and its people. anything less than that is treachery against the people who pay your wages.

If, in the case that you refuse the request of thousands of our people to hear this matter in Patea I will speak in Wellington.

Yours

Denise Lockett
