Notes

This is far too close to the Island to be dumping anything. Great Barrier Island with it's pristine waters and home to marine reserves to protect species, will be under threat from this dumping. This should be dumped much further out to sea where it can do less damage. Take it out to at least a hundred Kilometers from any Beach. That way there is no or little threat to shore sea life, Paua's muscles, scallops etc..., and breeding grounds of fish species.
