**Notes**

Decline The risks from cumulative impacts on threatened marinemammals are unacceptable - the assessment is grossly inadequate. The effects of undisclosed harmful chemicals to be discharged at sea cannot possibly be assessed. Climate change is real - New Zealand has the obligation to deliver its commitment to the Paris Agreement under the UNFCCC and the EEZ-CS Act must be amended to include considerations of climate change. Drilling and associated activity may have had something to do with the recent unexplained sperm whale deaths
