Yes I/we wish to receive all communications relating to this application.

**Notes**

**Clause**

What decision do you want the Board to make and why? Provide reasons in the box below.

**Position**

Refuse

**Notes**

The applicant should not be allowed to discharge harmful material into our waters. The well sites are in close enough and in shallow waters to cause harm to our fisheries, marine mammals and bird life. The applicant should be made to take the harmful material and dispose of it as if it was on land. Deep well injection is an option and so is land farming. Have they looked into coastal restoration?
