Notes

Kao - No

Clause

What decision do you want the Board to make and why? Provide reasons in the box below.

Position

Refuse

Notes

Decline Further exploration and drilling for fossil fuels is culturally, socially, environmentally and economically irresponsible. The risks from cumulative impacts on threatened marine mammals are unacceptable - the assessment is grossly inadequate. The effects of undisclosed harmful chemicals to be discharged at sea cannot possibly be assessed. Assessing related applications separately lacks transparency and does not allow overall assessment of cumulative impacts or integrated management of effects - the EEZ-CS Act s44 calls for joint processing and decision making on related applications. A bond must be required to

ensure that a decommissioning plan is put in place as per international obligations - the EEZ-CS Act 65 enables this. Climate change is real - New Zealand has the obligation to deliver its commitment to the Paris Agreement under the UNFCCC and the EEZ-CS Act must be amended to include considerations of climate change. Leave fossil fuels inside the planet. Jacinda Ardern needs to steer the country to complete, Renewable Energy and uphold New Zealand's obligation to the 2015 Paris Accord Agreement.
