## **Memo**

**To:** NCI Board of Inquiry  
**From:** Bike Auckland  
**Subject:** Feedback on issues raised from Bike Auckland's presentation

### **Introduction**

Subsequent to Bike Auckland (BA)'s presentation to the BOI on Thursday 10 August, BA met with Gary Moore (Aurecom) and Paul Glucina (NZTA) to discuss concerns about local links to the project's shared path. This has resulted in a side agreement dated 29th August attached to this memo.

NZTA has since updated UDL.14 and UDL.15 of the NOR conditions, and engaged in discussions with Auckland Transport (AT). This memo provides BA feedback to the BOI on these points.

### **Sheet 1 - Oteha Valley Rd**

BA is pleased that NZTA will work with AT to:

- Provide a SUP connection to the existing shared paths to the north-west of the Oteha/SH1 interchange
- Investigate a crossing of Oteha Valley Rd at the eastern end of the SUP.

### **Sheet 2 – McClymonts Rd**

BA is pleased that NZTA will work with AT to:

- Provide improvements to McClymonts and Elliot Rose to facilitate connectivity to the bus station.

### **Sheet 5 - Arrenway/WSL Pond**

BA is pleased that NZTA will:

- Explore a Greenways stub to Centorian Reserve from the SUP in discussions with AC & WSL.

### **Sheet 8 - Paul Matthews**

BA is pleased that NZTA will:

- Use best endeavours to ensure there is a one metre or physical separation between cyclists and motorists on SH18 and the Paul Matthews bridge

- Provide a SUP connection along Caribbean Drive to a point beyond the Barbados/Meadowood roundabout.

### **Sheet 9 - Alexandra Stream/Rook Reserve underpass**

BA accepts that it is very difficult to widen the existing underpass, particularly given drainage issues. We are comfortable that UDL.13 & UDL.14 bring BA into the consultation loop with AC Parks and AT to ensure alignment and CPTED issues are addressed.

### **Sheet 10 - Albany Highway**

BA is pleased that NZTA will work with AT to:

- Provide a SUP connection along Albany Highway to Bush Rd
- Provide improvements for northbound cyclists on Albany Highway to enter the SUP
- Advance the implementation of the Albany Highway South project.

### **Consultation**

We appreciate the additional discussions we have with the NZTA after presenting to the Board and the agreement that Bike Auckland will have the opportunity to collaborate with the Agency on a number of design details of the cycling component of the project.

Steve Southall  
Committee Member
