Northern Corridor Improvements Proposal - Application for waiver of time

We act for the NZ Transport Agency in relation to the Northern Corridor Improvements Proposal.

We understand the Board of Inquiry will shortly consider whether or not to waive timeframes relating to the late provision of addenda to the submission by the Centre for Urban and Transport Studies (submitter number 126516, D Willmott).

We advise that the NZ Transport Agency does not oppose the waiving of timeframes in relation to these addenda.

Please do not hesitate to contact me if you have any questions.

Yours faithfully
Kensington Swan
