### Notes

I support the Forest & Bird submission to grant the application. In particular I support measures for the wider catchment which will protect: the water clarity and purity, the scientific, ecological and biodiversity values, habitat for indigenous flora and fauna, cultural values, wild, scenic and natural characteristics. My submission relates to all of the application. I support the application. I seek that the Special Tribunal recommends granting the order to the Minister of the Environment. I do not want to present my views at the public hearing.

### Clause

What is/are your view/s on the application?

### Position

Support

### Notes

It is important for the life of the springs that they be kept clear and clean. Any degradation now will affect the future of the springs and all the life it supports for ever and ever. They will never be able to return to the pristine state they are in now. No commercial activities up stream should be allowed. Absolutely none. Farming and mining are so very bad for the environment and would be a disaster for this spectacular area. Anne Evans
