I support the Forest & Bird submission to grant the application. My submission relates to all of the application. I support the application. I seek that the Special Tribunal recommends granting the order to the Minister of the Environment. Notes

It's absolutely crazy that this taonga is being impacted by land use intensification. There are some parts of this country that need to up their game in regards to protection of indigenous biodiversity and freshwater quality. Fencing and planting small riparian strips does almost nothing in regards to limiting nitrate nitrogen concentrations in groundwater and surface water bodies downstream. It only limits phosphorus.

Grant the order
