Notes

It is an absurdity in a year when waterways have been so polluted, mainly by stock effluent, that people have been unable to swim in rivers and lakes. It would be a terrible action to allow even the risk of any pollution or reduction in the relevant waterways. It is widely recognised that the dairy industry is not sustainable and is responsible for a drastic decline in environmental health. To allow more intensive irrigation to serve the unsustainable dairy industry would be the height of irresponsibility.

Clause

Would you like to present your views on this submission to the Special Tribunal at a public hearing?

Position

I/we do not want to present my/our views at a public hearing
