**My submission:**

I support the Forest & Bird submission to grant the application. In particular I support measures for the wider catchment which will protect:

- the water clarity and purity
- the scientific, ecological and biodiversity values
- habitat for indigenous flora and fauna
- cultural values
- wild, scenic and natural characteristics

My submission relates to all of the application. I support the application. I seek that the Special Tribunal recommends granting the order to the Minister of the Environment. I do not want to present my views at the public hearing.

It's incredibly important that the Hearing Panel understand your personal views about Te Waikoropupū Springs. Please tell them below what's important to you::	I remember travelling through the South Island when I was 18 and again last year nearly 60 years later. I was horrified then at the way commercial interests have taken over. The Waikoropupū Springs are one of the few places still in good condition and free from exploitation. Please keep them that way. Irrigation has to be better managed as it is wrecking the waterways and using underground water that will not be available once all the glaciers and ice fields melt.
