Notes

I support the Forest & Bird submission to grant the application. In particular I support measures for the wider catchment which will protect: the water clarity and purity, the scientific, ecological and biodiversity values, habitat for indigenous flora and fauna, cultural values, wild, scenic and natural characteristics. My submission relates to all of the application. I support the application. I seek that the Special Tribunal recommends granting the order to the Minister of the Environment. I do not want to present my views at the public hearing.

Notes

This is important to me because we have to live in harmony with the natural environment. If we destroy it, we can no longer sustain ourselves. With increasing pollution of our waterways, the springs become a place of national and international significance. If we claim to be clean and green, we must do what it takes to be that. We owe it to future generations to protect our natural environment.

Clause

I/we seek the following recommendation from the Special Tribunal to the Minister for the Environment

Position

Grant the order
