**Sent:** Sunday, 11 March 2018 8:33 PM  
**To:**  
**Subject:** Submission from <https://action.forestandbird.org.nz/tewaikoropupu/>

**My submission:**

I support the Forest & Bird submission to grant the application. In particular I support measures for the wider catchment which will protect:

- the water clarity and purity
- the scientific, ecological and biodiversity values
- habitat for indigenous flora and fauna
- cultural values
- wild, scenic and natural characteristics

My submission relates to all of the application. I support the application. I seek that the Special Tribunal recommends granting the order to the Minister of the Environment. I do not want to present my views at the public hearing.

It's incredibly important that the Hearing Panel understand your personal views about Te Waikoropupū Springs. Please tell them below what's important to you::	Te Waikoropupu springs really is an unique and beautiful environment. Having worked and lived in the Tasman District I can appreciate them as a local attraction, as part of what makes Tasman the unique and beautiful place it is and for their own intrinsic value as both a place of beauty, for the ecosystem it supports and the wild landscape it represents.

If this doesn't qualify as a waterbody with "outstanding amenity or intrinsic values", then New Zealand doesn't stand a chance. A water conservation order needs to be in place to protect these water bodies. We cant rely on remedial measures, we need to step in earlier and provide protection at the level we actually want to sustain in the long term.

Recognise the unique status of these waters and grant the application for this water conservation order.
