The sanctity & outstanding environmental value of Waikoropupu Springs, including the water source.

Clause

What is/are your view/s on the application?

Position

Support

Notes

The purity of the Springs is unique to our Southern Hemisphere (excepting Antarctica). They are awe-inspiring to any person lucky enough to view them:- Maori & Pakeha, local resident and visitor alike. Science is unable to prove just how much contamination of the water source is too much. To ensure that tipping point is never reached, we must not allocate more water from this source (or encourage toxic contamination to it).

Clause

I/we seek the following recommendation from the Special Tribunal to the Minister for the Environment

Position

Grant the order

Notes

Clause

Would you like to present your views on this submission to the Special Tribunal at a public hearing?
