Subject: Submission from <https://action.forestandbird.org.nz/tewaikoropupu/>

My submission:

I support the Forest & Bird submission to grant the application. In particular I support measures for the wider catchment which will protect:

- the water clarity and purity
- the scientific, ecological and biodiversity values
- habitat for indigenous flora and fauna
- cultural values
- wild, scenic and natural characteristics

My submission relates to all of the application. I support the application. I seek that the Special Tribunal recommends granting the order to the Minister of the Environment. I do not want to present my views at the public hearing.

It's incredibly important that the Hearing Panel understand your personal views about Te Waikoropupū Springs. Please tell them below what's important to you::

My family and I used to visit the springs every summer while staying in Golden Bay as a young kid. It was amazing to see such clear waters that looked pristine and shouldn't be touched. Since then the changes to our environment have been drastic in some areas due to increasing population and consumerism. In my opinion it is also lack the of caring and ignorance from people that in all likely hood will continue negative changes in the environment. It is our duty to reduce the impact we are having, so I have decided to speak on behalf of 'Pupu Springs' to stop the increase in irrigation around the area. The detrimental change will have an adverse effect on the springs that we will unlikely be able to replace. I would like future generations to see what I saw as a little girl.

Thanks for reading.

Kylie
Pupu Springs are cool.
