**My submission:**

I support the Forest & Bird submission to grant the application. In particular I support measures for the wider catchment which will protect:

- the water clarity and purity
- the scientific, ecological and biodiversity values
- habitat for indigenous flora and fauna
- cultural values
- wild, scenic and natural characteristics

My submission relates to all of the application. I support the application. I seek that the Special Tribunal recommends granting the order to the Minister of the Environment. I do not want to present my views at the public hearing.

Please provide any other information you would like to tell the Hearing Panel here:: A precautionary approach should be taken with such a pristine and iconic area so that pollution from farming and other activities in the wider catchment reduces compared with current levels and the Springs are not pushed as close to their ecological limits as they currently are.
