Notes

Water is soo precious and we waste soo much. Irrigation if stealing what should be protected , affects all the otehr species reliant on healthy water sources. This is another area whcih is being abused for greed rather than the need of the whole and future generations. Am't their other methods of collection rainwater for irrigation like large temporary light tarpaulins with a tap and water into tanks. We need to find better methods of colleciton rather than depleting or polluting natural sources (for the benifit of the few) Thanks for your help Michele
