Notes

The Te Waikoropupū Springs are a national treasure and should be preserved as a high priority. The natural purity of the water should be kept unsullied by rising nitrate levels or any other intrusive material or use that puts this beautiful natural treasure at risk. I support the application for a Water Conservation Order to protect these crystal clear waters. Once gone extinction follows. We need to exercise our guardianship and care for this area of pure spring water in an already polluted world that got this way because of inaction in preventing the loss of natural pure resources. We have an opportunity to preserve and protect. A Water Conservation Order would start the process.

Clause

I/we seek the following recommendation from the Special Tribunal to the Minister for the Environment

Position

Grant the order
