**Subject:** Submission from <https://action.forestandbird.org.nz/tewaikoropupu/>

**My submission:**

I support the Forest & Bird submission to grant the application. In particular I support measures for the wider catchment which will protect:

- the water clarity and purity
- the scientific, ecological and biodiversity values
- habitat for indigenous flora and fauna
- cultural values
- wild, scenic and natural characteristics

My submission relates to all of the application. I support the application. I seek that the Special Tribunal recommends granting the order to the Minister of the Environment. I do not want to present my views at the public hearing.

It's incredibly important that the Hearing Panel understand your personal views about Te Waikoropupū Springs. Please tell them below what's important to you::	The preservation of what is there the only change should be one that adds value and protection. We are privileged we should protect the rights of future generations to enjoy and have access to the same privileges.

We don't need another contaminated water supply or another site to visit where you are left wondering what it used to be like.

We should be addressing the means by which contamination occurs not be left with finding solutions to the contamination we have allowed to take place.
