Overall Notes:

Clause

The specific parts of the application that my/our submission relates to are:

Notes

I support the Forest & Bird submission to grant the application. In particular I support measures for the wider catchment which will protect: the water clarity and purity, the scientific, ecological and biodiversity values, habitat for indigenous flora and fauna, cultural values, wild, scenic and natural characteristics. My submission relates to all of the application. I support the application. I seek that the Special Tribunal recommends granting the order to the Minister of the Environment. I do not want to present my views at the public hearing.

Clause

What is/are your view/s on the application?

Position

Support

Notes

The delicate ecological balance of this unique toanga must be protected from further damage from nutrients entering its catchment. Damage could be irreversible or take 1000's of years to recover, if at all. Few bodies of water have the purity of the Te Waikoropupu Springs giving it unique biodiversity and habitats that would be destroyed by changes in the nutrients levels in the water.

Clause

I/we seek the following recommendation from the Special Tribunal to the Minister for the Environment

Position

Grant the order

Notes

Clause
