Notes

I support the Forest & Bird submission to grant the application. In particular I support measures for the wider catchment which will protect: the water clarity and purity, the scientific, ecological and biodiversity values, habitat for indigenous flora and fauna, cultural values, wild, scenic and natural characteristics. My submission relates to all of the application. I support the application. I seek that the Special Tribunal recommends granting the order to the Minister of the Environment. I do not want to present my views at the public hearing.

Notes

I fear that if you progress with allowing more water to be taken from the Springs and there is more irrigation runoff in the catchment area, the pollution could become irreversible and it will be too late to rectify. Why endanger such a beautiful natural resource when we don't completely understand how it works?

Grant the order
