Notes

New Zealand has a world wide reputation as an environmental friendly and responsible country, with beautiful scenery, unique flora and fauna, friendly and caring people and a progressive and forward thinking government. With the planet going through massive changes because of human influenced climate change, it is more important now than ever before to protect our environments, clean our water ways and change our ways of depleting Earth's dwindling natural resources. We need to protect what we already have, especially unique and pristine environments like Te Waikoropupu Springs. Please extend the protections for this unique area of New Zealand. Humanities very existence rides on governments like New Zealand taking firm and proactive stands on saving our precious environment. As the Native American Indian quote goes: "When the last tree is cut down, when the last river is poisoned, when the last fish has been caught, then we will find out we cannot eat money".

Clause
