Notes

All our rivers and streams in NZ used to be crystal clear and clean. I am alarmed about the proposals to ruin this waterway. The introduction of Nitrates and residue from Gold mining operations will destroy the quality of the water and will have the effect of killing wild life. NZ is fast getting a name world wide of a country that is selling tainted goods. Once our clean green image is destroyed we will all be the poorer for such a calamity. Our grand children will then be very angry that we did not do something to clean up our waterways and the environment.
