Subject: Submission from <https://action.forestandbird.org.nz/tewaikoropupu/>

My submission:

I support the Forest & Bird submission to grant the application. In particular I support measures for the wider catchment which will protect:

- the water clarity and purity
- the scientific, ecological and biodiversity values
- habitat for indigenous flora and fauna
- cultural values
- wild, scenic and natural characteristics

My submission relates to all of the application. I support the application. I seek that the Special Tribunal recommends granting the order to the Minister of the Environment. I do not want to present my views at the public hearing.

 It's incredibly important that the Hearing Panel understand your personal views about Te Waikoropupū Springs. Please tell them below what's important to you::
 It is hard to believe that we have to argue at all for the preservation of these precious springs to keep them for now, and for all future generations. I support the application because the cost-benefit ratio of not doing so is monumentally in favour of the benefit in terms of biological values, habitat preservation, scenic and touristic amenity as well as the essential need to respect cultural values enshrined in Article the Second of Te Tiriti namely '...full exclusive and undisturbed possession of their Lands and Estates Forests Fisheries and other properties which they may collectively or individually possess so long as it is their wish and desire to retain the same in their possession;...' A wider catchment is the only way to protect the taonga, and I urge you to grant the application.
