### Notes

I support the Forest & Bird submission to grant the application. In particular I support measures for the wider catchment which will protect: the water clarity and purity, the scientific, ecological and biodiversity values, habitat for indigenous flora and fauna, cultural values, wild, scenic and natural characteristics. My submission relates to all of the application. I support the application. I seek that the Special Tribunal recommends granting the order to the Minister of the Environment. I do not want to present my views at the public hearing.

### Clause

### Notes

I first visited the springs about 50 years ago. On my last visit a year ago I noticed an increase in the herbal growth within the springs which to me indicates a change in the water nutrient levels. It would be a real shame if we allow this taonga to degrade.

### Clause
