To: [REDACTED]
Subject: Submission from <https://action.forestandbird.org.nz/tewaikoropupu/>

My submission:

I support the Forest & Bird submission to grant the application. In particular I support measures for the wider catchment which will protect:

- the water clarity and purity
- the scientific, ecological and biodiversity values
- habitat for indigenous flora and fauna
- cultural values
- wild, scenic and natural characteristics

My submission relates to all of the application. I support the application. I seek that the Special Tribunal recommends granting the order to the Minister of the Environment. I do not want to present my views at the public hearing.

It's incredibly important that the Hearing Panel understand your personal views about Te Waikoropupū Springs. Please tell them below what's important to you::

Dear Madam / Sir,

I urge you to consider the condition of New Zealand's natural assets, the quality of which are in decline due to human activity.

As well as ecological and moral arguments, it would be disastrous for New Zealand's economy, should our 'clean green' image be tarnished abroad.

To the contrary, most of the populated regions of the world are degrading their natural assets to critical levels.

New Zealand could enjoy a golden future, as one of the last true 'clean green' places left on earth.

The future of the world looks to be one where quality natural assets will attract a premium, and we should align our policies to capture this premium.

Please, for the future prosperity of our country, let's
clean up our act!

Yours sincerely,

Mark Gregory
