Notes

I support the Forest & Bird submission to grant the application. In particular I support measures for the wider catchment which will protect: the water clarity and purity, the scientific, ecological and biodiversity values, habitat for indigenous flora and fauna, cultural values, wild, scenic and natural characteristics. My submission relates to all of the application. I support the application. I seek that the Special Tribunal recommends granting the order to the Minister of the Environment. I do not want to present my views at the public hearing.

Notes

I found the Te Waikoropupū Springs and walk through the area exceptionally beautiful and peaceful. It is a fine natural environment that has been recognised, appreciated and protected to date. The broad awareness of the importance of clean water, bio-diversity, tourism and many New Zealanders' love of natural beauty and desire to conserve it in a natural state is a strong reason for full protection. We have already lost numerous 'magical' places in NZ - let's make sure we lose no more.

Clause

I/we seek the following recommendation from the Special Tribunal to the Minister for the Environment

Position

Grant the order
