### Notes

Its important to me that the Pupu Springs remain pristine. We have major degradation in many of our waters and need to be proactive in protecting our environment. There is too much ignorance when it comes to chemical use across the board. People are not informed of the consequences to their health and environment. Its time to stop the downhill spiral. My mother was from families of first settlers in the Golden Bay and I have visited the Pupu Springs many times over the years and enjoy my visits to the beautiful natural habitat and ecosystem we have there.
