Notes

We need to protect New Zealand's Taonga for our mokopuna. Why allow more irrigation in the catchment area that would compromise the quality of the pristine water in this spring? It seems idiotic to me that people would want to jeopardise the quality of the water in one of the cleanest and clearest springs in the world. These natural treasures need to be protected from pollution. More needs to be done in New Zealand to conserve our forests, rivers, springs, and natural flora and fauna that inhabit these areas.

Clause

Grant the order
