Notes

I have been visiting and taking overseas and New Zealand friends to this very special place for many years since retiring to Nelson. As I now have several great grandchildren I am appalled to think that this unique place might be spoiled by more and more nitrates and perhaps other chemicals in the water of the springs. It is so important to allow these springs to remain clear and unique in the world so that future generations may be proud that this present generation had the forethought to look after them with care.

Clause

I/we seek the following recommendation from the Special Tribunal to the Minister for the Environment

Position

Grant the order
