Clause

The specific parts of the application that my/our submission relates to are:

Notes

Te Waikoropupu Springs and the associated waterbodies deserve the utmost care and respect and I wholeheartedly support the application for a Water Conservation Order to be put in place. We must preserve this for our generation and future generations this is a very unique and special place of national and international importance. The integrity of the water and these waterways should always be the highest priority when any applications are considered; and I trust that the Water Conservation Order will achieve this and be long lasting and binding to all parties and interests including local and national government to ensure that the water and these water ways are never compromised by any human activity. These water ways were here long before our forefathers and this delicate ecosystem is priceless and we must protect them to the best of our ability. I agree Te Waikoropupu Springs are significant to our Maori and Pakeha culturally and spiritually and the biodiversity, habitat, scientific and ecological importance must also be taken into consideration. Please consider this application for all the aspects that have been submitted to protect and honour this natural, scenic wonderland that we are yet to completely understand how all the various organisms and water ways function together to balance this precious ecosystem.

Clause

What is/are your view/s on the application?

Position

Support

Notes

Clause

I/we seek the following recommendation from the Special Tribunal to the Minister for the Environment

Position

Grant the order

Notes

Clause

Would you like to present your views on this submission to the Special Tribunal at a public hearing?

Position

I/we do not want to present my/our views at a public hearing
