I support the Forest & Bird submission to grant the application. My submission relates to all of the application. I support the application. I seek that the Special Tribunal recommends granting the order to the Minister of the Environment. I do not want to present my views at the public hearing.

Notes

New Zealand's biodiversity - and in this case, fresh clean water - is so important to me, and for my children and in time, their children. We must protect our country's taonga not only for ecosystem services but for its inherent value and beauty. New Zealand already has far too much polluted water, water that is unsafe to swim in, diversity-poor and no longer places of scenic value. We must protect what we have left. For us, our children, our children's children and all their futures.

Clause

I/we seek the following recommendation from the Special Tribunal to the Minister for the Environment

Position

Grant the order
