

# Water Conservation Order: Te Waikoropupū Springs and Associated Waterbodies

**Submission Reference no:** 331

**Acupuncture South Taranaki (Nigel Cliffe)**

**Submitter Type:** Organisation

**Source:** Web Form

## Overall Notes:

### Clause

The specific parts of the application that my/our submission relates to are:

### Notes

Dairy farming affecting water quality and quantity and ecology

### Clause

What is/are your view/s on the application?

### Position

Support

### Notes

To preserve something like this is important because if it gets polluted then recovery will prove very difficult if even possible. Today's dairy farming is all about short term gain. I would like the government to withdraw farming in this area and also include covenant so it can never be changed even with changes of government.

### Clause

I/we seek the following recommendation from the Special Tribunal to the Minister for the Environment

### Position

Grant the order

### Notes

I would like that in 100 years and beyond that this natural habitat may still provide the nurturing aspect of clean drinkable water.

### Clause

Would you like to present your views on this submission to the Special Tribunal at a public hearing?

### Position

I/we do not want to present my/our views at a public hearing

### Notes

**The submitter have elected to withhold their personal details from publication.**
