Notes

I support the Forest & Bird submission to grant the application. In particular I support measures for the wider catchment which will protect: the water clarity and purity, the scientific, ecological and biodiversity values, habitat for indigenous flora and fauna, cultural values, wild, scenic and natural characteristics. My submission relates to all of the application. I support the application. I seek that the Special Tribunal recommends granting the order to the Minister of the Environment. I do not want to present my views at the public hearing.

Notes

It would be tragic to compromise the purity and clarity of Pupu Springs and jeopardise the ecosystem of the many organisms that inhabit the aquifer. I have spent time at and near the springs with my family for the last forty years. Pupu provides a sense of awe and joy at the vastness of nature that needs special protection from the effects of development.
