#### Notes

I support the Forest & Bird submission to grant the application. In particular I support measures for the wider catchment which will protect: the water clarity and purity, the scientific, ecological and biodiversity values, habitat for indigenous flora and fauna, cultural values, wild, scenic and natural characteristics. My submission relates to all of the application. I support the application. I seek that the Special Tribunal recommends granting the order to the Minister of the Environment. I do not want to present my views at the public hearing.

#### Notes

I grew up in Golden Bay, Pupu springs are very important to me. They are also very important to the thousands of visitors from NZ and around the world who come to see this pure, clean water. Tourism can be completely sustainable and can earn NZ more money than Dairy Farming can earn. It is proven that Dairy Farming is ruining our rivers and lakes all over NZ. The nitrate levels are rising in the water at Pupu springs. This is very dangerous! It is complete madness to allow more irrigation and intensification of farming above this precious resource.
